Purpose

The purpose of this report is to inform the school principal and school community of the destinations of students from this school who completed Year 12 in 2008. This is one indicator of the outcomes of schooling.

A school may choose to use this information to:

- Review its senior schooling programs and services, e.g. subject offerings, career advice, links with employers and/or tertiary institutions
- Contribute to its reporting to parents, e.g. through its newsletter, annual reporting documents, website.

This report has been provided to the school and its school system, where this applies. The school may publish this report, if it wishes.

Source of information

This report is based on the findings of the Queensland Government *Next Step* survey, which targeted all students who completed Year 12 and gained a Senior Statement in 2008, whether they attended a Government, Catholic or independent school, or a TAFE secondary college. The Office of the Government Statistician conducted the survey between 30 March and 6 May 2009, approximately six months after the young people left school. Responses were predominantly collected via computer-assisted telephone interviewing with a paper-based survey collected from a small number of students for whom telephone details were not available.

The survey results were compiled and reported on by the *Next Step* team, Department of Education and Training.

Care should be taken in publicly using figures of less than 3 responses or percentages based on less than 3 responses.

Privacy statement

To protect the privacy of individuals participating in the survey, this report contains summarised information only.

Further information on the survey is available at www.education.qld.gov.au/nextstep. This website includes the statewide and regional reports on the survey findings.

Summary of findings

In 2009, 66.7 per cent of young people who completed their Year 12 at Home Hill State High School in 2008 continued in some recognised form of education and training in the year after they left school.

The most common study destination was university (23.3 per cent). The combined VET study destinations accounted for 43.3 per cent of respondents, including 6.7 per cent in campus-based VET programs.

36.7 per cent commenced employment-based training, either as an apprentice (16.7 per cent) or trainee (20.0 per cent).

In addition to the above study destinations, a further 10.0 per cent of respondents from this school deferred a tertiary offer in 2009 (deferrers are shown in Figure 1 in their current destination).

33.3 per cent did not enter post-school education or training, and all were employed.

There are a range of differences between and within school, regional and statewide destinations. Care should be taken when interpreting comparative data as the findings may relate to groups of different sizes.

Response rate for this school

Table 1 Survey Response Rate

Number of respondents	Number of students who completed Year 12	Response rate (%)
30	37	81.1

Table 1 reports the response rate for Home Hill State High School. It expresses the number of respondents from this school, as a percentage of all Year 12 completers attending Home Hill State High School in 2008.

It has not been possible to ascertain how representative these responses are of all students at this school.

Please note that some survey participants did not provide information for particular survey questions. As a result, the number of responses shown in Table 4 onwards may not reflect the totals reported for the main destinations appearing in Table 3.

Definitions of main destinations

All respondents were categorised into their main destination, be it study or work, as outlined in Table 2. Students (in university or VET) were assigned to the study categories regardless of their labour force status.

Table 2 Main Destination Categorisations, Next Step 2009

Higher Education	
University (degree)*	Studying at degree level.
VET categories	
VET Cert IV+*	Studying Certificate IV, Diploma or Advanced Diploma (excluding apprentices and trainees).
VET Cert III*	Studying Certificate III (excluding apprentices and trainees).
VET Cert I-II/other*	Studying Certificate I or II (excluding apprentices and trainees). This category also includes students in an "unspecified" VET course, or in other basic courses (e.g. Year 12, bridging course, etc.) and with an unknown course level.
Apprentice	Working and in employment-based apprenticeship.
Trainee	Working and in employment-based traineeship.
No further education or training	
Working full-time [~]	Working full-time (35 hours or more per week) and not in a study or training destination. This includes people with part-time or casual jobs that total 35 hours or more.
Working part-time [~]	Working part-time or casual (fewer than 35 hours per week) and not in a study or training destination.
Seeking work	Looking for work and not in a study or training destination
Not studying and not in the labour force	Not in study or training, not working and not looking for work.

*Some students also in the labour market
